

1. go to this link(copy paste):

<https://github.com/hereunderrock/img>

2. sign in

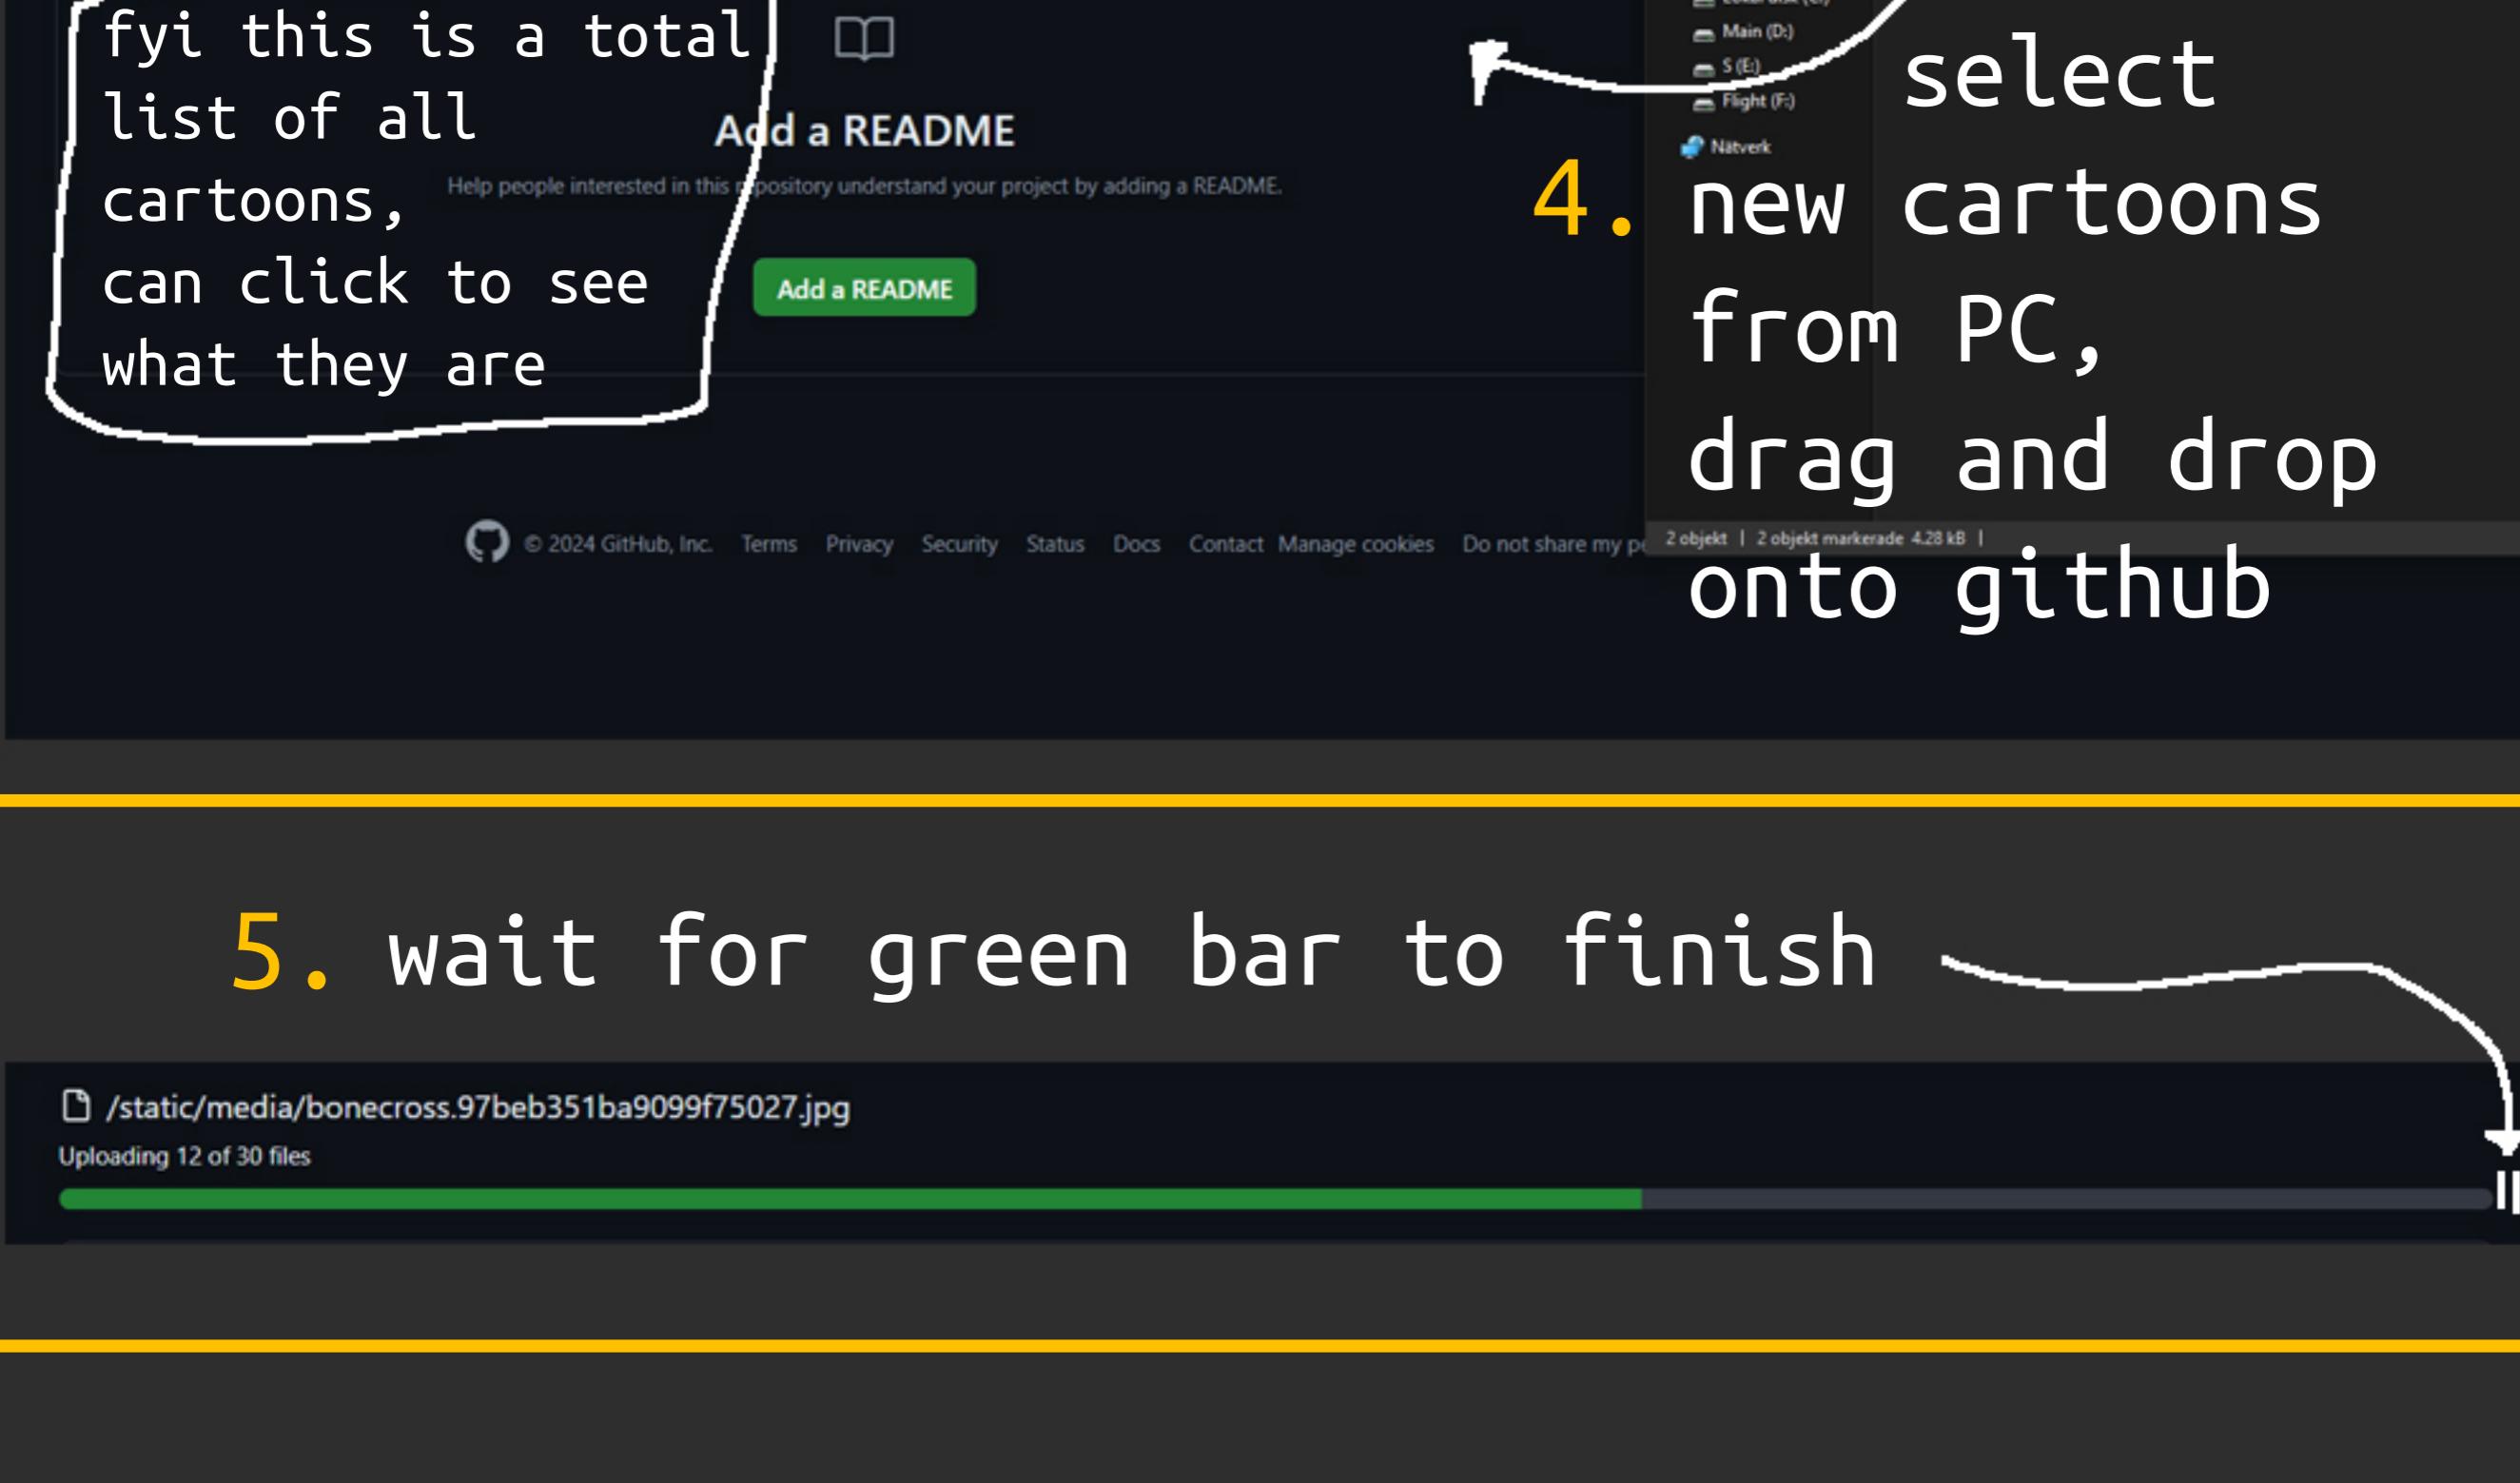

3. can drag and copy below for login:

user:XMRRequest@protonmail.com

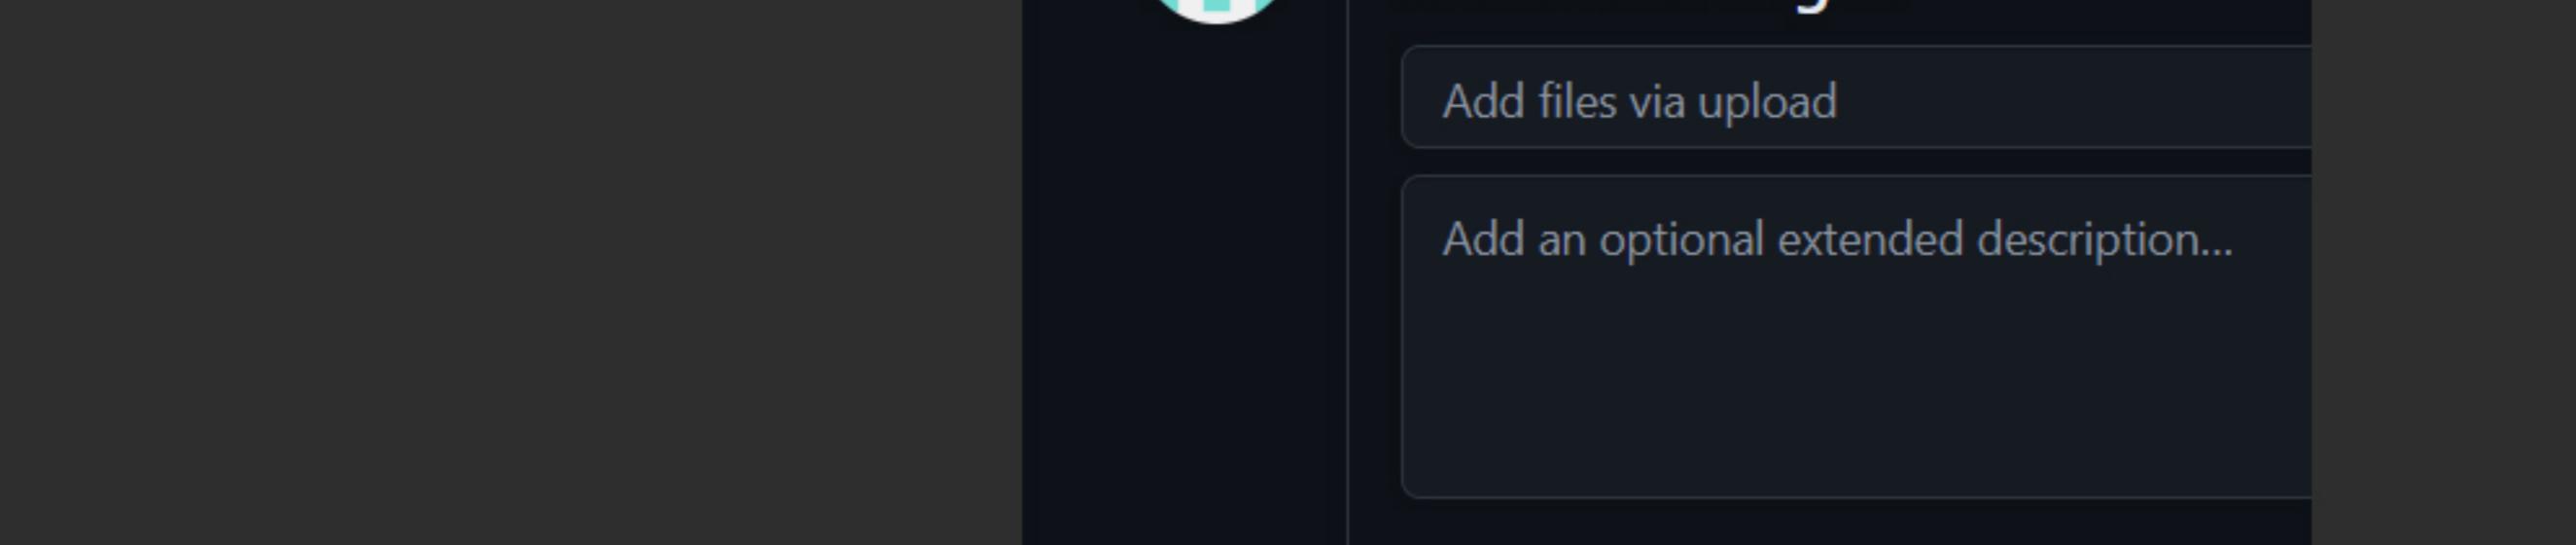

pass:[lanceStargate23!](#)

should see this

don't see that? go to link under no. 1 again

5. wait for green bar to finish

6. click commit

7. admin center defunct now that mongodb doesnt host

.. it is a static json file

that lives in /src/staticdb.json

need to update that and rebuild

(for Em to do unforch)

8. DONE!
